Water Treatment – Defoamers

Minimize Foam-Related Issues in Industrial Manufacturing Operations

Air and surface foam can cause a variety of quality, production and environmental problems for industrial operations.

To help you overcome these issues, Diversey offers a full range of foam control agents and antifoam agents. These foam control products minimize the detrimental effects of entrained air, surface foam and surfactant-stabilized foam in aqueous manufacturing systems and address most foam-related issues and regulatory requirements.

Diversey's foam solutions combine our application expertise and technical support with cutting-edge chemistries, and advanced monitoring and control systems.

Targeted Improvements:

Improved system performance

Improved asset protection

Broad regulatory compliance

Reduced operator intervention

Improved operational performance and efficiency

Exacting product quality control

Reduced water, energy and effluent costs

Reduced downtime

Optimized chemical usage

Reduced total cost of operation

A Comprehensive Range of Defoamers and Antifoams

Diversey provide a comprehensive range of foam control agents and antifoam agents for both defoamer (foam knockdown) and antifoam (foam prevention) applications. Our portfolio comprises of oil-based defoamers, silicone-based defoamers, surfactant-based concentrate defoamers, and water-based defoamers - as well as a variety of specialty formulations.

Our Solutions Include:

Defoamer Platforms

- Oil-based defoamers, including concentrate and water extended formulations
- Silicone-based defoamers
- Surfactant concentrate defoamers
- Water-based defoamers

A Range of Specialty Formulations

- Fatty alcohol solutions
- Hydrophobic silica solutions
- Oil-free solutions
- Silicone-free solutions
- Wax-free solutions

Water Treatment – Defoamers

Monitoring and Control

We offer several state-of-the-art monitoring and control solutions for foam control applications, to provide you with complete system control. Our portfolio comes backed by the acknowledged expertise of our dedicated team of applications experts.

Our Systems Include:

- Automated chemical feed and control systems
- Foam control system for wastewater applications
- Data management service
- Inventory monitoring service

Diversey Deliver Exceptional Water Treatment throughout the Global F&B Industry

Whether processing, washing, diluting, cooling, or cleaning - water is a necessity in Food and Beverage (F&B) production. The quality of the water is critical for efficiency, consistency, and safety. Maintaining quality helps to ensure safer, more consistent products and protect brands, while maintaining profitability and hygiene compliance to stringent regulatory standards.

In partnership, we apply our global expertise to achieve four key goals wherever water is used

- To help reduce or reuse the water used in processing
- To achieve sustainability goals and cost savings
- To maintain product quality and compliance
- To protect asset life

Our world-class range of technologies, services, and innovative solutions combine specialty chemicals and equipment tailored to the individual needs of each facility, to optimize water treatment processes.

Visit www.diversey.com/watertreatment to discover Diversey's complete range of Water Treatment solutions

Diversey's purpose is to **protect** and **care** for people through leading hygiene, infection prevention and cleaning solutions. Diversey has been, and always will be, a **pioneer** and **facilitator for life**.

We constantly deliver **revolutionary** cleaning and hygiene technologies that provide **total confidence** to our customers across all of our global sectors, including: cleaning products, systems and services that efficiently integrate chemicals, machines and sustainability programs. This makes us **unique** among leading global hygiene and cleaning companies.

Everything we do has our customers' needs at its heart and is based on the belief that cleaning and hygiene are **life essentials**.

With over **95 years of expertise**, we safeguard our customers' businesses, contributing to productivity improvements, lower total operating costs and brand protection.

Diversey is headquartered in Fort Mill, S.C., USA. For more information, visit www.diversey.com or follow us on social media.
