

Diversey - A Solenis Company takes Sustainability seriously.

John Panichella, CEO Solenis, states:

“At Solenis, we believe that we have a key role to play in helping to address some of the world’s most critical problems, protect our most valuable resources and preserve our planet. The overlap and integration of our business and our sustainability efforts is extensive and cannot be overstated.”

Circularity, Planet and Climate By 2025

>90% of new innovation projects to have sustainability/circularity focus
>30% innovation programs to drive product carbon footprint reduction

Solenis has earned **Platinum Recognition for CSR performance from EcoVadis** for the 3rd consecutive year

Our commitment

To ensure we offer effective and sustainable solutions that minimize waste of water, energy, emissions and plastic, in order to improve our customers' sustainability outcome

Recycled and Recycling

Our end-of life benchmark is **99%** of a TASKI floorcare machine can be disassembled and up to **95%** can be recycled

4x longer battery life, and 3x faster charging, with **new Li-Ion batteries** vs gel (less waste into landfill and less energy consumed)

Reducing Carbon Footprint

- **LCA (Life Cycle Assessment)** data has been created for over 2000 chemicals, tools and machines (to help customers understand how to reduce their carbon footprint)
- Availability of **Super concentrated chemical**, to save shipping water, plastic and cardboard
- Offer of mops and cloths **with increased wash cycles** (longer mop lifetime, less replacement, reduced shipment)

Solenis strategic ESG&C framework

Supporting staff and customers, protecting our planet, and providing value for our clients

Ecolabels

Many of our products have ecolabelled certification, designed to ensure our products and services meet ambitious environmental requirements.

In 2023 we

- Completed our first Carbon Disclosure Project
- Committed to Science Based Targets initiative (SBTi)
- Increased emphasis on DE&I training and development
